Are You Ready For The New Semester?

Our SCHOOLS

An article in the **Chicago Tribune** states that our teachers are complaining they are "not allowed to teach." That the administrators expect the teachers to teach the whole child—but teach him nothing. Everything must be easy, Johnnie must be happy, must not know failure, and therefore he doesn't learn anything.

Who is at fault? Its not the teachers nor the pupils, but with the system of our education everyone must pass to make room for the next class. Why not leave the slow ones behind and accelerate the fast ones? When they find themselves then let these slow ones continue on to higher learning.

OUR SYSTEM OF AVERAGES:

Moving the entire class ahead to make room for the next one is not a fair way to treat brighter than the average student. This system of giving grades to the students on a basis of the average student rather than individual merit, ends up with the fact that the norm of the class is determined by an average students abilities.

This leads up to what the Chicago Tribune calls "Cut-and-dried" procedure.

1. That all children must remain in school up to an age specified by law whether they learn anything or not.

2. That all children must be promoted whether they deserve it or not.

3. That marking is done on a curve instead of on individual merit, so that the norm of the class is determined by an average student.

4. That a teacher's value is to be measured by the ability to work within administrative margins (teamwork) and not by knowledge and expertness in the subject taught.

5. That democratic principles require that the teacher should not discipline the students lest the student regard himself as socially unwanted or unfit.

This idea all leads up to the essence of Dean Potter's speech on the **Educational Systems of The U.S. and U.S.S.R.** He pointed out the fact that the U.S.S.R.'s system was better than ours because they would take the student who wasn't doing very well and place him in certain schools where he was given certain types of vocational studies, and if he showed he had the initiative to go ahead to higher learning, he was replaced in the faster schools.

This is not saying that the Soviets are better than we or that we are better than they are, but which system produces the better educated person?

Christmas Assembly A Success

On December 20, 1957, the annual Christmas Assembly was held in the lounge. Lee Sorensen acted as master of ceremonies. The assembly opened with group singing of Christmas carols, led by Jerry Mankowski. A chorus consisting of some of the girls at PUCC sang three carols. Jerry sang "Hark the Herald Aangels Sing." Jerry sang without any rehearsal and his solo was enjoyed by everyone.

Lee introduced Father Casmir who gave a Christmas message to the group. Mrs. Wilson, math instructor, accompanied by Mr. Crane, chemistry instructor, sang two Christmas selections.

Taps were played in memory of Mrs. Phelan and Lavergne Blakey, and the students left the lounge in silence to conclude a very impressive assembly.

WELCOME

The staff of the BOILERMAKER would like to represent the student body at Pudue in extending a welcome to the new students.

Here at the Extension we have a different situation than that which exists when all the students live on the campus. We have people coming and going from 8 in the morning until 11 at night. This fluctuation in the times the students attend classes makes it difficult to organize activities.

However, dances and social events are planned as often as possible, and regular basketball and baseball gamcs are played.

We hope that you new students will take an active part in our activities in order to assure yourselves of a well-rounded college education.

Good luck at Purdue!

New Semester Starts Jan. 30

According to an announcement by Millard E. Gyte, center director, the spring semester of classes at P.U.C.C. will officially begin January 30.

Schedules for daytime or evening classes in the degree program or the Technical Institute may be obtained by calling or visiting the Center.

Courscs to be offered in the university degree program for the spring semester will include all major freshman and sophomore courses in the schools of science and engineering. Offered will be courses in economics, English, government, history, engineering, mathematics, chemistry, physics, plant science, psychology, zoology, sociology, German, speech, and physical education.

Courses giving graduate credit will be: advanced reinforced concrete, organic chemistry, labor law, contemporary political problems, and advanced engineering mathematics.

In the technical institute second and fourth semester courses will be offered in five technologies: building construction, drafting and mechanical, industrial, electrical, and chemical and metallurgical. In addition to the regular daytime and evening classes, some classes will be available on a shift schedule.

Registration for beginning freshman will be held along with an orientation program on January 27 beginning at 8:30 a.m. Registration for all other courses will be held January 28 and 29 at the Center. Those interested in finding out more about any of the above programs may call the Center at TIlden 4-0520.

SYMPATHY

P.U.C.C. STUDENT DIES OF HEART ATTACK

On Dec. 17, 1957, Lavergne F. Blakey, 20, of 1969 Broadway, Gary, collapsed of a heart attack in the P.U.C.C. student lounge. He was pronounced dead on arrival at St. Margaret's Hospital, dcspite attempts of the Hammond Fire Department to revive him.

Blakey was a member of the First AME Church in Gary and had lived in Gary all of his life. He was a 1955 graduate of Froebel High School and had served in the U. S. Marine Corps; he was a fershman engineering student at P.U.C.C.

Lavergne Blakey is survived by his mother, Mrs. Ruby Blakey, and grandparents, Mr. and Mrs. Charles Aaron of Gary, and the Rev. and Mrs. H. F. Blakey of Springfield, Ill. The Boilermaker staff, in behalf of the student body, regrets the loss of a fellow student.

The Boilermaker staff wishes to express its deepest sympathy to Walter Pehlen and his family on the loss of his mother, Mrs. Pehlen, on Dec. 19, 1957. Walter Pehlen is a member of the Boilermaker staff and a member of the Student Council.

Regional Science Fair Progress

Several weeks ago the directors of the Regional Science Fairs of Indiana conferred at Purdue University, Lafayette, Mr. Flannery and Mr. Rhodes, director and chairman, respectively, of the Calumet Region Science Fairs and laid the foundation for them.

Other members of the local committee besides Mr. Flannery and Mr. Rhodes are Dr. Schlosser, Mr. Anderson, Dr. Tuckey, and Mr. Malone.

This committee will supervise the staging of the fair which will display the exhibits of an estimated two-hundred science-minded high school and seventh- and eighth grade students from the Calumet Region.

April 11, 12, 13, have been set aside as the dates when the students from the participating high schools and grade schools will place their exhibits on display in the Armory which is located on 173rd Street.

The students who will be allowed to participate in this fair have already won honors for their exhibits from their respective schools. Although group projects are allowed, only the singular projects will be alowed to compete for the all-expense paid trip to the National Convention in Flint, Michigan. The exhibits will be the original work of students and will demonstrate principles of science and mathematics. Those whose entries are picked as the most outstanding by a panel of qualified judges will have an opportunity to attend and to place their exhibits in the National Science Fair which will be held at Flint, Michigan, May 7-10, 1958.

Almost all the faculty members from PUCC, are helping to make this fair a success. There will be a few students who will act as guides through the Armory and the Center.

The Center is holding an Open House during the Fair to introduce the students and parents to higher learning. A committee, headed by Mr. Tackett, will set up displays or exhibits at the Center for the people to see what is available here for the student who will be going to college in the next few years. It is hoped that shuttle buses will operate between the Armory and the Center to avoid any traffic problems.

Mr. Flanenry said, "It might be well for the schools to realize that the deadline will soon be set for the high schools," after which they will not be allowed to enter any more projects.

In the near future, there will be a meeting of all the advisors from the participating schools to set up the rules for the Science Fair.

Student Faculty Discussion

There will be a student faculty discussion session on Thursday, February 6, 12:00 to 1:00 p.m., Room 111. Suggested topics for discussion can be placed in a box provided for that purpose in the student council room, Room No. 5. A list of the topics to be discussed and faculty members participating will be posted in the student lounge approximately a week before the date scheduled.

Placement Tests

Any new student who is planning to enter Purdue University Calumet Center for the spring semester must participate in the placement examination program. No student may register at P.U.C.C. until he has made formal application and had this application approved.

NEWS SHORTS

"Great American Books," English 250 in the Purdue University Department of English, will be offered by the Purdue Calumet Center in the spring semester, registration for which will be held on January 28 and 29, 1958.

* * *

In order to help meet the increasing need for optometrists, Purdue University Calumet Center has established a new curriculum in the schoo of Science—Pre-Optometry.

* * *

A major curriculum in Physical Education for men has been added to the Purdue University Calumet Center schedule of courses this year. It is a two-year course leading to a degree of bachelor of physical education.

* * *

He added that English schools were finding problems similar to ours in students' inability to read and in over-emphasis on sports.

Semi-Formal

The Semi-Formal which was held in the student lounge December 21, 1957 took a lot of work. Many of the students participated in the decorating of the lounge, working to 3:00 Saturday morning, and then finishing Saturday afternoon.

The chairman of the dance was Bob Foster. Because Jerry Engerski, who was co-chairman, was a freshman, he had to carry the majority of the load to familiarize him with the procedure of decorating for a dance.

The dance which was attended by 80 or more couples, proved to be quite a success.

The music of Mickey Isley's Band filled the air with romantic ideas, and many students really made a night of it by coming in rather late!

The cafeteria was kept open at the expense of the Anderson's so that refreshments could be served.

In general the dance proved to be the best one this year.

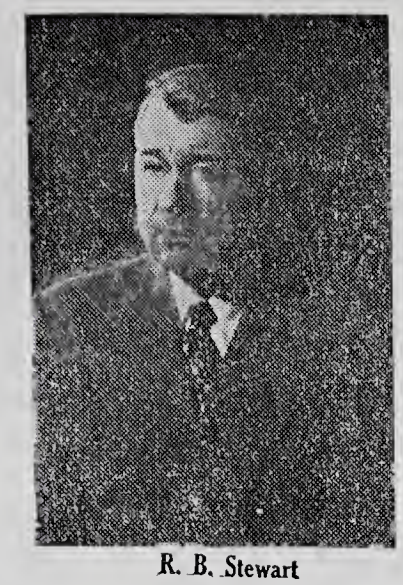
TUCKEY REVIEWS BOOK IN NEW PURDUE JOURNAL

A new Purdue periodical, the JOURNAL OF DEVELOPMENTAL READING, has started with the publication of the Autumn issue, which appeared in November. The JOURNAL is devoted to the improvement of reading in high school, college, and adult programs and is to be published quarterly by the Developmental Reading staff of the Department of English of the University. Professor George B. Schick, of the Lafayette campus, is the editor. Among the editorial assistants of the JOURNAL is Dr. John S. Tuckey of the Calumet Center. The opening issue includes a contribution by Dr. Tuckey, a review of **Effective Reading for College Students**, a recently published book on reading techniques.

PANIC BUTTON

The Pepsi math man is back,
Morning, noon, and night
You'd think it would be a fright,
To watch him guzzle with delight.
Cards:
The word is out — don't play against Andy and Chuck — quit dealing seconds.
The unbeatable pinochle players are Rob and Bob. Watch the bottom of the deck, boys.
Brains:
He sits solemn and content;
John, Phil, Larry, and Ted.
Too bad they can't see past the last page
I guess, to them, it seems the rage.



R. B. Stewart

Purdue Alumni Meeting Dinner

The Purdue Alumni Annual Dinner Meeting will be held at Teibel's Restaurant, Thursday Evening, February 6, 1958. Dr. R. B. Stewart will be the main speaker; Guy Mackey, Jack Mollenkopf, and Executive Director of the Purdue Alumni Scholarship Foundation, C. H. Hall, have also accepted invitations to say a few words. The United States Steel Corp. Swing Orchestra will provide the music.

Dr. R. B. Stewart, Vice President and Treasurer of Purdue University, who will speak at the Alumni Dinner Meeting, is one of the nation's outstanding leaders in the field of educational administration and finance. He is one of the University's most popular speakers and is much in demand in this role not ony in Indiana and the Middle West, but throughout the nation. His major field is business and investment management.

A native of Minnesota, Dr. Stewart received his bachelor of arts and master of arts degrees from the University of Wisconsin and his Doctor of Laws degree from Butler University.

Guy J. (Red) Mackey, Purdue's veteran athletic director who is launching his twenty-ninth year as

JACK MOLLENKOPF
Purdue

a member of the Boilermaker staff this fall, is recognized as one of the most progressive leaders in the collegiate field. He has virtually grown up with the continually expanding, comprehensive Purdue program of intercollegiate and intramural sports and is thoroughly familiar with coaching problems as well as administrative details.

Under his energetic direction, the Boilermaker physical plant has been developed into one of the most modern, unified setups in the country, including the fieldhouse and gymnasium, enlarged stadium, and a host of other projects.

In recognition of his successes, he was signally honored in 1944 when he was awarded the Leather Medal presented annually to the Purdue staff member adjudged to have made "the greatest contribution to the welfare, success, and reputation of the University."

Jack Mollenkopf, in his second year as Purdue's head football coach, developed a balanced combination that was generally rated as one of the nation's "most improved" teams.

Through his hard work and against pre-season ratings he exceeded all expectation by tying for fourth place with a record of 4-3.

Mollenkopf is the fifth Boilermaker assistant to be promoted to head coach since the days of Jim Phelan.

THE Light REFRESHMENT

Cross Section Of the Games

By HARRY REBEY

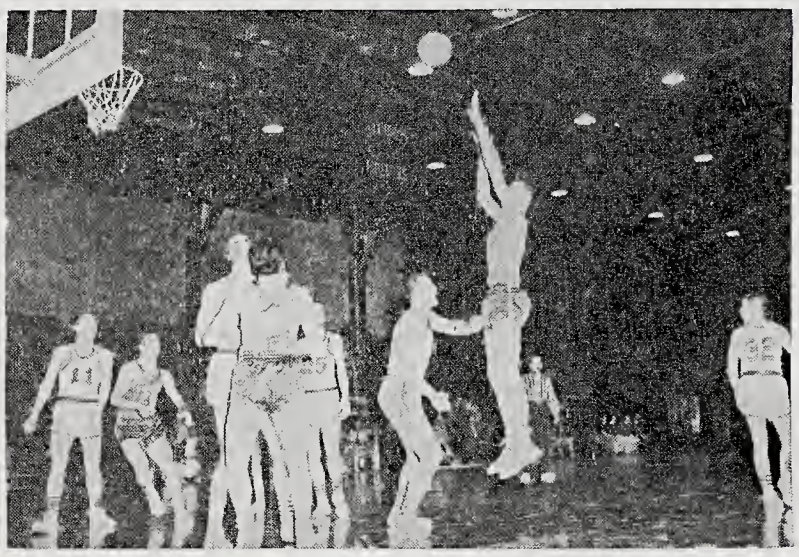
PUCC lost two straight ball games, losing 78-46 to Ball State Teachers College and 61-47 to Elgin J. C. before winning their second game of the season, 57-55 against Roosevelt J.C.

Jerry Jonas and Harry Rebey scored - and 10 points, respectively, against Ball State while John Eckert led the Boilermakers with 12 points in the Elgin contest.

Showing signs of general improvement on the basis of a line-up change, PUCC defeated Roosevelt J.C. with Charlie Rayson leading the Boilermakers scoring with 24 points. This scoring outburst was Rayson's second highest total since scoring 29 points against Thornton of Harvey. Harry Rebey followed Rayson with 11 tallies.

The Boilermakers were completely outclassed when they lost to the powerful Wheaton freshmen 94-97, with Harry Rebey having the highest PUCC point total with but five baskets for ten points.

PUCC was once again humiliated when they lost to a small but well coached Lyons J.C. team 94-60. Clyde Rector scored 17 points for the Boilermakers.



TOLAN SCORES — LAKE FOREST.

For the second time this season, the Center boys met Roosevelt J.C. but fell to the wayside as Roosevelt revenged their previous loss with a 56-52 win. Harry Rebey led the scoring for the team with 9 points.

The next night they pulled themselves together once again, to defeat a stubborn University of Chicago "B" team 43-41.

Before a small crowd of slightly more than 40 people, both clubs worked the ball well for good shots. The scoring was close throughout the ball game and the scoreboard showed a tie game, 39-39, at the end of regulation time.

In the ensuing overtime the boys waited as the Chicago team worked the ball in futile attempts to score and then Charlie Rayson broke loose on a long down court pass over the Chicago "press" defense to make it 41-39. Once again Chicago tied the ball game. The remainder of the game showed both teams missing good shots until Rayson again broke loose under the bucket for the winning tally with but few seconds remaining in the ball game.

The last game which was played as of this writing was lost to Elgin J.C. 83-62 on Elgin's home court. Big Bob Tolan, played his best game of the season, scored 22 points and was followed closely by Charlie Rayson and Gordon Teegarden with 17 points apiece.

Sign over a school water fountain: Old Faceful.

Lance Unlimited

Dear Lance:

Since I received several yellow slips this semester, I was asked to leave school. When my father found out, he kicked me out of the house. I got a job, but on the way to work, my car broke down. I never showed up for work that day, so I got fired. I went to my girl's house to tell her my troubles only to find out that she'd eloped with my best friend. I have had so much bad luck that I'd hang myself if I could tie a slip knot. What is your advice to me?

Desperate Dan

Dear Dan:

Down, under, to the left, cross over. Repeat 5 times. Use 13 feet of strong rope.

* * *

Dear Lance:

I have been trying to improve my lawn, but every time I sow seeds, I rip my shirt. Ideas?

A shirt-ripping grass-seed-sower

Dear As-rg-s-s:

As you sow, so shall you rip.

* * *

Dear Lance:

I'm aways behind the eight ball. I need help.

Bill Yerds

Dear Bill:

Get off the table!

Athlete of the Month

HARRY REBEY

Harry Rebey, freshman forward is the unanimous choice as this month's Athlete of the Month, for his general all around playing and leadership during PUCC's last eight games. The PUCC captain scored 23 baskets and 11 free throws for 57 points and an 8 point average.

THE CIRCLE "K" NEWS

The Circle "K" sponsored a tour through Standard Oil Company on January 3, 1958. Although thirty-six students signed the list, only sixteen actually went on the tour.

Bill Diehl, President of Circle "K," has announced that there will be no more tours of area industries this school year because of lack of interest displayed by the student body.

The Circle "K" is planning a Nucleonics Day, and is planning to have a speaker from the Argonne National Laboratory.

On its agenda for coming events, the Circle "K" is planning a February dance. Details about the dance are not yet complete, but they will soon be released.

A Rocket Club is being planned as a subsidiary of the Circle "K." The Circle "K" will have only jurisdictional duties over the Rocket Club which will be separate from the Circle "K" and have different officers.

Customer: "Have you a book called, 'Man, the Master of Women.'"

Salesgirl: "Fiction counter to the left, Sir."

YOUR OPINION

Question: Do you think that a Student Activities Fee should be instituted here at the Center? This fee woud be allocated among the different organizations such as the Student Council, Boilermaker, Sports, etc., for the benefit of the entire student body. The cost per student would be $2.00 for full time students, and $1.00 for part time students.

Richard J. Taillon: "It seems all right for those who are interested, but what of the fellow who is too old for sports, doesn't belong to the Student Council, or docsn't care if this paper comes out or not? This fellow would be paying for nothing. There is also the fellow who couldn't afford this fee; this means the fellow who is married, has a child, and is working at a part time job. This fellow would need all the money he can get his hands on just to live. So to tax this on to a persons school fee would not be fair. I think a person who takes part in any of these activities should be the one to pay."

Marge Bernadus: "No, I couldn't afford it because they take $3.75 for insurance where I work. Part-time students should not be charged a $1.00 fee because they usually don't know what is going on. They should publicize the activities more and then probably I would agree on the Student Activities Fee."

Jerry J.: "Yes, because the school could then afford to handle the activities as a college should, and not in their usual 'HAP-HAZARD' way."

WANTED — Rider to accompany me to Florida. Must be willing to share expenses, be able to drive, be blonde, and have car. Contact Lance Kapers, c/o PURDUE BOILERMAKER.

The New In Sounds

Dave Brubeck is off to college again in his new Columbia LP "Jazz Goes to Junior College." With Paul Desmond, Joe Morello, and Norman Bates, Brubeck knocks out five fine recordings in this album taken from concerts at Fullerton and Long Beach junior colleges. The highlight of this album is this rendition of "St. Louis Blues." It is given that sound that belongs only to the Dave Brubeck Quartet.

A jazz session with the top jazz artists of the day is available in the Playboy record album. The album is the result of a poll taken by the magazine to determine the favorites in jazz. Examples of the winners' style and work have been waxed to give an exciting and thrilling hour-and-a-half of top jazz music. The album has such great performers as Louis Armstrong, Benny Goodman, Stan Kenton, Kai Winding, J. J. Johnson, Chet Baker, and Gerry Mulligan. On the vocal are Frank Sinatra and Ella Fitzgerald. This is a must for real jazz lovers.

The Modern Jazz Quartet, in their new album by the same name, offer some of the best in modern jazz. In this recording they give the modern treatment to such old standards as "I Don't Stand A Ghost of A Chance With You." Other new sounds to listen for are "Gone for the Day" by June Christy on Capitol, "The Count" a selectoin of Basie classics on the Camden label, "The Things I Love in Hi-Fi," by the Three Sons with Alfredo Menez on the pipe organ on RCA Victor.

Mabel: "I quit because my boss employed offensive words."

Myrtle: "What did he say?"

Mabel: "You're fired."

From the
LOCKER ROOM

By AL JENKINS

Now that the semester is over one can [illegible] the past hard-ships, and concentrate on the possible one during the next semester. The basketbal team will have to do the same thing; forget the hardships, the defeats, of this semester, and from now on concentrate on winning. The team will have to work hard to end the season with a decent win-loss record.

One thing that might help is for more students to attend the games. A team, especially this one, has a tendency to play good ball when performing in front of a large crowd. A little spirit can do a lot.

* * *

Coach Hayes has announced an intramural basketball schedule for the coming semester, and all the teams must be registered in the athletic office by January 30. Team captains are to meet at the Armory at 12:30, January 31. Each team must have a name and carry not less than eight or not more than twelve players on the roster. See the "Coach" for further info.

* * *

Several members of the basketball team are transferring from PUCC to other schools. Jerry Jonas and Russ Hardin are going down to the main campus, while Jerry Francoeur will attend Indiana University, and Clyde Rector will attend Indiana State Teachers College. Let's hope the best for these fine and likabe players.

* * *

The Eagles will play Earmon Iron's Gargoyles in the prelimnary game of the coming PUCC-Thornton J. C. contest. The Eagles are last year's intra-mural basketball champions, and the Gargoyles are also returnees from last year's schedule. It should turn out to be an interesting contest.

Patty: Men are all alike.

Joanna (from the South): Men are all ah like, too.

JONAS DRIVES — FOULED — LAKE FOREST.

THANK YOU

The officers, members, and sponsors of the Student Senate would like to thank the custodial staff and Mr. Anderson who kept the cafeteria open for the use of the students, for their co-operation in making Winter Wonderland a success.
